24V PoE Injector

WI-POE31-24V | WI-POE51-24V

Overview

Wi-Tek 24V injector provides 100Mbps or 1000Mbps ports and supports 24V Passive PoE output. Wi-Tek Power over Ethernet injectors provides different power and high-speed Ethernet data connection anywhere in your network. It can provide power to devices far away from sockets.

Features

Save your Cable and Time

Your CPE and 24V Passive PoE equipment will no longer be restricted by locations without power sockets and power sockets, additional AC wiring. Most of all, it reduces installation time.

Plug and Play, No Configuration Required

A plug-and-play design allows administrators to quickly connect the injector to the device with no hassle and no action required

Easy to Install

Zero configuration, simply connect the injectors to an Ethernet Switch and to the IP-based PoE device to provide power and data for the network with a compact and lightweight design.
